

## Scores of the participants of the second week

Dear Participants,

Thank you for participating in the STAK@Alps study at the Gnifetti hut in week 29 (15 - 21/7/2024). Your role is integral to our research, and we are pleased to share your achievements from the first week.

This week, we conducted a test to evaluate your knowledge of high-altitude medicine. The test consisted of multiple-choice questions designed to assess your understanding of altitude-related health issues, and each question was scored out of a maximum of 28 points.

We have organized the scores in tables according to the language in which the questionnaire was completed. Below, you will find the initial results and the distribution of scores. Please locate your code to see how many points you scored out of 28. Thank you once again for your invaluable contribution to our research.

Best regards,

The STAK@Alps Research Team
